Subject: SI and H Experimentation, 6 February 1952

On Wednesday, 6 February 1952, in Building 13, Room 20, SI and H experiments were carried on with [REDACTED] by [REDACTED]

Since it had been agreed by [REDACTED] and the writer that the development of the capacities of both [REDACTED] in the hypnotic techniques was essential, it was decided to conduct simple tests in an effort to produce deeper trance states in both [REDACTED] and use [REDACTED] solely for demonstration purposes.

Accordingly, the entire evening's work was spent conducting simple inductions and making tests for depth with simple post-hypnotics with both [REDACTED]. In this connection, both girls showed noticeable improvement in the opinion of [REDACTED] and the writer and appear to be approaching a more complete grasp of these techniques and a much more successful ability to participate in the experiments.

APPROVED FOR RELEASE
